Full Stack Software Developer, Web 3.0/BlockChain | Cloud | Data | Network | Decentralized Finance

Full-Stack Software Developer with 3+ years of experience in commercial application development. Eager to join Blockchain and Web 3.0 to build innovative and cutting-edge business solutions for the impressive suite of clients within its global reach. In previous roles, slashed downtime by 25% and ensured 98% on-time project completion. Also identified and dealt with a significant process bottleneck that boosted coding efficiency by 35% when resolved.

Currently, I am developing myself in the field of Blockchain and decentralized finance, as well as providing studies in the Cloud, Data, Network, and Fibre industries. First of all, I like to work remotely, of course, full-time roles also make me very happy because, as before, I love teamwork.

Technical skills; Web 3.0/Blockchain | JavaScript | .NET | C# | Python | Django | Flask |Node | React | Vue.js | PHP | Laravel | SQL | Oracle | Cloud (Azure, AWS, Google)

For speaking opportunities, collaborations, events, and business development, please email Yusuf Aras (yusufenessara@gmail.com).
